

Portable Smart Industrial Tube & Label Printers

NIMBOT C1

NIMBOT M2-H

Mimic introduces two newly arrived compact, high-performance printing solutions in portable cases. The Tube printer is designed to simplify wire and cable identification onto compatible PVC marker sleeves and heat-shrink tubing, while the Label printer offers versatile labelling identification across commercial and industrial environments. Both printers combine advanced printing technology with user-friendly features to support efficient, accurate and professional identification. Their compact, portable designs make them ideal for businesses seeking reliable labelling solutions that adapt to changing workplace demands.

The Tube NIMBOT C1 specialises in wire and cable identification, printing clear, durable markings onto compatible PVC marker sleeves and heat-shrink tubing. With 300 DPI resolution, speeds of up to 38 sections per minute, automatic cutting, RFID cartridge recognition and Excel batch printing, it is ideal for electricians, control-panel builders, telecommunications technicians and industrial automation professionals. Its 2,600 mAh rechargeable battery supports convenient printing in workshops and on-site installations.

The Label NIMBOT M2-H offers versatile labelling for equipment, assets, inventory and laboratory applications. Featuring 300 DPI resolution, printing speeds of 30–60 mm/s, and support for 20–50 mm label media, Bluetooth and USB-C connectivity, it produces professional labels on compatible materials. In addition, its 2,000 mAh rechargeable battery and Excel/CSV batch-printing capabilities make it a practical choice for warehouses, factories, workshops and commercial facility applications.

Portable printing delivers significant benefits, including improved productivity, consistent identification, reduced manual labelling and greater flexibility. From marking electrical wiring and solar installations to tracking warehouse stock, industrial equipment and maintenance tools, these printers help businesses organise operations and simplify identification wherever work takes place. Together, the NIMBOT C1 and M2-H provide smart, reliable and convenient labelling solutions tailored to the diverse needs of modern industry.
